Subject: Island Rock Bond

I spoke with John Bleazard about their situation and how he was coming on getting the bond for their mining operation. He said he had talked to his bank and started getting things set up. He asked about who's name the bond should be in and I explained that it should be in our name, but it needs to be set up so that he gets the interest. I told him he should have the bank contact Beth so that they could get the appropriate paper work filled out. He talked like he would try to get it by next Tuesday. ---FYI
